

RICCA TERRA

2023 HIGH NOON SKIN CONTACT WHITE BLEND

---VARIETAL MIX---

Trebbiano 50% & Greco 50%

---REGION---

Riverland

---THE STORY---

Let's start with the label! Our reputation of bright and fun labels has been taken to a new level with our new 'natural wine' series. Created by Gabriel Cunnett, we wanted a label that was visually inspiring while telling the story of region, vineyard and family.

Under the scorching high noon sun, a chilled glass of this wine beckons with its tantalizing notes, offering a refreshing respite to the parched palate.

---TECHNICAL STUFF---

Winemaking: The natural yeasts of the vineyard converted the grape sugars into alcohol, meaning no prescribed inoculation of yeast occurred (this is a naturally fermented wine). In addition, no animal bi-products were used to fine the wine, so it is 100% vegan. After spending thirty days on skins, the wine was racked and bottled. No acid additions were made, just a small amount of sulphur to keep the wine safe from spoilage.
