

RICCA TERRA

2021 JUICY JUNE

---VARIETAL---

Negroamaro & Grenache

---REGION---

Riverland

---THE STORY---

Beaujolais nouveau is a French thing! By the law of their land, the Gamay grapes must be harvested by hand. The early released red wine is bottled, only weeks after harvested, and sold at the same time every year, accompanied by fireworks, music and festivals. Juicy June is Australia's Beaujolais nouveau!

We harvest by hand, ferment in stainless steel and bottled in the shortest time possible from when the grapes were plucked from the vines.

The varieties in this wine bring bright and flavoursome characters to this wine.

All the grapes are grown in a sustainable manner and meet vegan standards.

Let's forget about the wine for one-second!

The label of this wine is amazing. It is happy, colourful and just makes you feel great.

Soil type: red loam over limestone
